It so happens, however, that in the last campaign the lem ratio party was run by, and in the interest of a set of "plutocrats" who do not belong to the honorable class of great creators of value, but are creatures of 'luck" and identified with methods of acquiring sudden wealth which cannot stand the light of day. The democratic national committee had almost exactly twice as much money to spend as the republican national committee bad. Mr. Calvin Brice and Mr. William L. Scott know! this important and vital fact.

Speaking of this subject the New York city where the characteristics of the party find their boldest and frankest deyelopment, no less than \$1,200,000 was spent by the democratic managers. To obtain this vast corruption fund every department of the city government was taxed and brought into the vortex of corruption. The judges did not escape the universal levy, and were brought down to the same low level with the ward bostes, and made to help complete the carnival of demogratic corruption.

The democratic newspapers have not dared to deny this debasement and defilement of our metropolitan politics, in the interest of democratic candidates. The facts are too numerous and recent and appalling.

Their only resource is to reiterate stale and exploded calumnies against republican leaders who have achieved honorable distinction by the manner in which they have first made their fortunes in business pursuits and then used the money honestly gained in liberal contributions for the legitimate expenses of political campaigns. The mud thrown at these representative American merchants and bankers will not stick. They are too well known by their fellow citizens, too highly respected, too long

There is an effort being made in Rhode Island to wipe out the law of prohibition. Three years ago the prohibition amendment was adopted in that state by a vote of 15,113 to 9,230. It was thought by temperance men to be the best thing that could be done. It was well that the constitutional amendment was tried. The result is not well for temperance. and it is a disgrace to the state of Rhode Island. The people have not tried to any extent to enforce the law. No sooner was the amendment declared carried than drinking began to be done openly,

KIDNAPED IN CHICAGO. THE WISCONSIN LEGISLATURE.

A YOUNG WOMAN SEIZED TON A CROWDED STREET.

Before She Recovers-A Mysterious Case-The Criminal Record.

CHICAGO, March 26. - A case of kidnaping that for boldness outrivals anything ever before committed in this city was enacted last evening on Van Buren street within a few feet of State. It occurred about 6:45 o'clock, an hour when hundreds of people pass the spot on their way home from work. What makes the case so daring was that it took place right under the full glare of an electric light.

Hattie Mendelson is the name of the victim. She is a pretty, black-eyed, Jewish girl, scarce 19 years of age. Miss Mendelson works in a down town shirt factory and had received her weekly pay, \$9.90, of which she had spent \$1.50 for a jersey and was then waiting for a car.

She stood there for three minutes, perhaps, when a man slipped up behind her, and telling her he would kill her if she made an outcry, placed his hand over her mouth and threw her into a buggy standing in the alley. In what direction he drove she doesn't know. He probably chloroformed her, as she lost consciousness the moment he placed his hand over

When she awoke it was in the front yard of No. 4,084 Prairie avenue. Mrs. C. B. Kent resides at that number, and a few moments before 8 o'clock, while sitting in the rear parlor Mrs. Kent was startled at hearing the cries of a person as if in pain. Half a dozen people hastened to the spot whence the cries proceeded, and lying upon the ground by the side of the house they discovered Miss Mendelson. At first she appeared unable to talk and in a bewildered, semi-unconscious manner

appealed for aid from some impending danger which she imagined threatened The young woman was cared | fcr and

A reporter saw Miss Mendelson at her home last night, and she said that she could give no description of her assailant except that he was well-dressed and wore a silk hat. The money and jersey were taken from her, but no injury was done to

From the time she was thrown into the buggy until she regained consciousness she has no recollection of what occurred. It is one of the most mysterious affairs that has occured in this city in many a day. The police do not think that the man's motive was robbery, but that it was his intention to assault her. Miss Mendelson does not receive the attentions of any young man,

PUSHED HIM INTO THE CANAL.

A Supposed Murder at Cincinnati Proves

CINCINNATI, Ohio, March 26. - A singular phase has developed in the canal murder, in which George Duffy and George Droess confessed that they had been drinking with a stranger and took him to the canal and pushed him in, each charging the other with being the murderer. It was in Central Asia promises interesting and at first, thought that Harry Barnes of Newport, Ky., was the victim, but he was found alive. Subsequently a man was found who said he was the man thrown into the canal and that he had been rescued. Yesterday the dead body of a man was found in the canal and suspicion was revived against Duffy and Droess. They declared the man was not their victim. To-day it was discovered that the drowned man's name was Amos Gavey, who was on trial at Fayetteville, Ohio, for killing a saloon keeper named Doyle at that place. He had escaped some days ago. Tuesday morning a private watchman saw a man jump into the canal near where the body

Not Guilty. GENEVA, Ill., March 26.-Judge Killum called the special session of the Kane county Circuit court to order Monday morning to hear the dynamite case of The People vs. Goding, Koegel, and Broderick. The defendants were represented by Lawyers Donahue and Davis of Chicago and Samuel Alschuler of Aurora. The people were represented by W. J. Hynes and Chester M. Dawes of Chicago and Frank Thatches and State's Attorney Hanchett of Aurora. Mr. Davis filed a motion to quash the indictment and in support of his motion stated that the indictment was The motion to quash was overruled by the court. Broderick and Koegel filed an affidavit asking for a separate trial from Goding, as Mrs. Goding was wanted as a witness by them, and if Goding was tried at the same time she could not be a competent witness. The defendants pleaded not guilty. A recess was taken to allow the judge time to consider the motion for a separate trial.

Brutally Clubbed by Regulators. KANSAS CITY, Mo., March 26.-John Corlew, aged 64, was clubbed almost to death by a dozen or more disguised men as he was entering his home, near Lees Summitt, late Wednesday night, and given twenty-four hours to leave the county. His alleged offense was improper relations with two young girls. He is now in bed in Independence, and his son, who is a prominent citizen of this county, promises a hot reception to the White Caps if they attempt to repeat their outrage.

CLIPPED OATS.

Machine for Bringing Up the Low MILWAUKEE, Wis., March 26.—It is re ported here that a new industry, the knowledge of which will cause a sensation on the bull side of the oats market, has been developed by the corner in oats now being run. The new industry is the clipping and scouring of oats to make low grade oats conform with the higher standnered. The gentleman said that hundreds of thousands of bushels of clipped oats will be delivered in May, when the pending contracts come to fulfillment, and the result may be that the corner will be broken. The clipping is done by a patented machine which cuts the narrow end from each individual oat at the rate of 300 bushels a minute. It is alleged that these machines are now at work in every elevator in Chicago.

THE JACKSON REFRIGER TOR Co., CHICAGO, ILL.

Gentlemen: Having had in constant use for the past two seasons one of your Cold Storage Houses we wish to say that it has given entire satisfaction. Its preserving powers are perfect and in no instance have we met with loss of stock stored in it its most commendable features being the good circulation and entire freedom from moisture and dampness; no evidence of sweating having been perceived, the ceilings and side walls always being dry. We can cheerfully recommend your Cooling Room to any parties whose business requires the use of Cold Storage. Yours respectfully,

Dear Sirs: I have used one of your Refrigerators for two seasons and am well pleased with the results. I have kept eggs six months and taken them out in fine condition. Butter, if put in good condition, will keep a year. As to storing fruit, it is a perfect success. I now have evergreen sweet corn that has been in six weeks, and I think it is as good as when it was put in. Respectfully it was put in. Respectfully

JACKSON REFRIGERATOR Co., CHICAGO, ILL. Jackson Refrigerator Co., Chicago, ILL.
Gentlemen: This is to certify that we have been using a 40 car load refrigerator store house, refrigerated on the Jackson plan for the past three years, with exceedingly satisfactory results. We have been able to carry eggs in this storage from May until January or February of the winter following in perfect condition. These eggs being packed in new white wood cases, with excelsor packing, and the cases are not moved or disturbed from May until such a time as the eggs are required for use cases are not in ved or disturbed from May until such a time as the eggs are required for use in the fall or the winter. June butter has kept in this storage in pe fect condition nearly a year, and we carried a barrel of potatoes in one of the rooms two years withent any loss from deeay, and at the end of this time the potatoes were as firm and perfect as when placed in the covers. The storage is assily managed and is were as the and perfect as when placed in the storage. The storage is easily managed and is fairly economical in its consumption of ice, and the ventilation and dryness seem perfect.

Very Respectfully, MARVIN & CAMPACK.

THE JACKSON REFRIGERATOR Co., CHICAG., III Gentlemen: The Cold Storage Building I Gentlemen: The Cold Storage Building I commenced last spring was completed and fill d with ice in May. I use it in connection with my creamety for storing butter, and can show June butter apparently as fresh as when it was put in. I also put in a crate of eggs during the summer as an experiment; I examined them r cently and found they were keeping perfectly. The room is dry and cold. and with only the warm air flues open, had no trouble to keep it at a temperature of 36 to 38 degrees during the warmest weather. Your plan is a success and I do not know where it could be in any way improved. Yours truly.

FUNERAL SERVICES OVER JUS-TICE MATTHEWS.

Affairs at Samoa-The Lydecker Court Marshal Opened.

WASHINGTON, March 26.—The funeral of the late Justice Matthews was held at his residence, corner of Connecticut avenue and N street, at 1 o'clock Monday

The services were simple and impressive and began with the reading of scripture by the Rev. Dr. Hamlin, pastor of the Church of the Covenant, of which Mr. Matthews was a member, and the Rev. Dr. Leonard. The Schubert quartet sang "Abide With Me," followed with prayer by Dr. Hamlin.
There was no address. President Harrison
and the mombers of the Cabinet were in
attendance, as were also the members of the Supreme court and many Senators and nembers of the House.

The body, which had been embalmed, lay in state in the parlor of the residence during the earlier part of the day, and was viewed by many friends of deceased.

The Chief Justice and associate justices acted as honorary pall-bearers, while the active pall-bearers were, according to custom, selected from among the messengers employed at the Supreme court.

At 3 o'clock the remains were taken to the Baltimore & Ohio depot to be conveyed to Glendale, Ohio, Judge Matthews' country home, near Cincinnati. Services will be held there and the interment will be held at Spring Grove cemetery. Justices Gray, Blatchford, Harlan and Lamar accompany the remains to Cincinnati.

ALL QUIET AT SAMOA.

Commander Mullan's Report Received -The Nipsic Safe. WASHINGTON, March 26.-Capt. C. N. Schoonmaker, commanding the Vandalia, reports to the navy department, under date of Feb. 23, the arrival of the Vandalia, under his command, at Apia, Samoa, the

day previous.

He found in port the Nipsic, the Calliope, and the German corvettes Adler, Olga, and Eber. Everything, has been quiet since Mullan, having prepared a full report of the condition of affairs in the islands, would send it by the same mail. The Trenton had not arrived.

White, took off the captain and crew. The Constitution was owned by Mr. Nicholas Richard of San Francisco, and was formerly a steamer. She was rebuilt in 1873 at San Francisco. Other smaller vessels are reported to have gone ashore on the west end of Upola island.

Affairs at Apia have been very quiet since the last dispatch to the department. of the anniversary of Washington's birthday and the foreign men-of-war took part in the exercises. The indications are that the Tamasese party is losing ground.

HOLLANDER CHARGES FRAUD. He Succeeds in Getting Himself Landed

in a Guatemalan Jail. WASHINGTON, March 26 .- The State Department has under investigation the case of John H. Hollander, an American citizen, and resident in Gautemalan, and editor of a daily newspaper there. Hollander sent the United States consul-

general in Guatemala a statement charg-Hall, and some of the officers of the Guatemalan government with receiving \$20,000 each out of a fraudulent excessive issue of ment prisoner and employe of the treasury firm in Guatemala a memorandum of a sale of \$20,000 worth of bonds on account of Minister Henry C. Hall. A demand was made upon the consul-general for these papers, and certified copies were by him furnished the minister, who put them in the hands of the Guatemalan government and urged Hollander's prosecution. Hollander was arrested and put in jail. He has appealed to the State De-

partment for protection. The case has not been fully investigated, but the examination has gone far enough to satisfy the department that the story about the false issue of bonds is not true. Hollander's course as an editor seems to have made him extremely obnoxious to the government, and there is an impression that he has presumed upon his American citizenship to protect him in bringing accusations that no native Guatemalan would have dared to make. Maj.-Gen. Schofield Issues an Order Relating to Detailing Men to Duty. WASHINGTON, March 26.-Maj.-Gen. Schofield has issued a general order based on the recent act of Congress increasing the number of officers who may be detailed to duty in colleges and promulgating a set of regulations prescribed by the President under the law. The regulations provide, in brief, as follows: As a rule captains of companies, regimental staff officers, or officers who have served less than three years with their regiments or corps, or who have recently completed a tour of detached duty, will not be eligible. No details will be made that will leave a battery, troop, or company without two officers for duty. The period of detail will be three years. No officer will be detached except upon an application from a representative from a college Applications for details must be made to the Secretary of War, and should be accompanied by a certificate as to the number of male students in the college. Officers may file applications for detail with the Adjutant-General.

The Lydecker Court-Martial. WASHINGTON, March 26. - A court-martial was convened at the War department charges arising from the failure of the aqueduct tunnel. The charges involve neglect of duty in failing to properly superintend the masonry work of the Washington aqueduct tunnel. The trial is the outcome of the official investigation recently made by Major-Gen. T. H. Ruger, and since which Major Lydecker has been relieved from duty and the position temporarily occupied by Col. John M. Wilson. Major Lydecker was represented by his counsel, Gov. Boutwell. The proceedings opened this morning with the reading of opened this morning with the reading of the order convening the court and the charge—neglect of duty to the prejudice of good order and discipline—which is supported by six specifications, which set out the faulty work in the tunnel and the fail-ure of the defendant to exercise care in its superintendence.

MRS. STOWE'S AFFLICTION.

Regaining Her Bodily Health, Her Mind Is Still Much Clouded. HARTFORD, Conn., March 26.-It is now about six months since Harriet Beecher Stowe was brought an invalid from Sag Harbor to this city. Mrs. Stowe went early last season to Sag Harbor to spend the summer. For a time she seemed benefited by the change, but for several weeks before she returned to Hartford her life was despaired of. Everyone supposed that the renowned authoress of "Uncle Tom's Cabin" had but a few weeks to live at most. But Mrs. Stowe finally recovered of her ailments and is seemingly now in as

HARD TIMES ON THE ISTHMUS.

An Almost Complete Suspension Trade-To Reduce Tsxation. PANAMA, March 26.—Commercial maters all over the isthmus are in bad condition, and there is little business doing. The Colon store-keepers and dealers have united in petitioning for a reduction of all kinds of taxes, owing to the complete stoppage of trade in the city.

A meeting was held at which natives and foreigners alike spoke, and a decision was reached that the supreme government be petitioned to reduce the commercial contribution, which is enormously high as compared with the amount of business being done. An instance of the condition of affairs has been given by Gov. Avcardi, who has issued a decree suspending payment of the debt of the former State of Panama and effecting other economies. Gov. Avcardi says that these measures have been adopted owing to the suspension of work on the canal.

In consequence of the collapse of the lo cal freight and passenger traffic on the Panama railroad the number of employes has been considerably reduced. At present only two passenger and two freight trains cross the line daily from either end.

Paint the Shingles. The Timberman very wisely remarks

that it has always seemed singular that in the use of paint to preserve wood exposed to the weather, the fact that a shingle roof was omitted from the catalogue was invariably the rule. This idea or oversight was one of those things in which custom becomes habit, and because every one else did so all the rest followed suit. It is safe to presume that the custom of leaving the shingle roof unpainted originated in its angular form being less nature of a shingle and the slight fastening it has. If paint should be useful on any weather-exposed surface, it should certainly be so on a roof. This fact goes without telling, and in the present style of suburban residences the roof receives its share of paint along with the rest of the building, thus at once combining the useful with the beautiful. It is certainly singular that painting of roofs has not always prevailed, and it adds much to the finished character of the building to see the roof painted. A Card..

BITTER DISCUSSION IN THE ILLINOIS HOUSE.

gle-An Indiana Measure Declared Unconstitutional.

ner anti-pool and book-making bill came up again in the House Monday afternoon and provoked for half an hour the most heated, personal and acrimonious discussion that has characterized any of the proceedings this session. The Speaker was for having the journal of Friday in which the bill appeared to have been laid on the table, approved, while its friends, who declared it had been ordered on the calander, wished to correct the journal. The speaker finally put and declared carried a motion to approve the journal, while the opposition declared that a motion had never been made, and presented the clerk's record to bear them out. The speaker still insisted that the question had been upon the approval of the journal and that it had carried. The dispute was finally settled by notice of a motion to reconsider the vote by which the journal was approved. This will bring the whole question before

Indianapolis City Court Refuses to Su tain an Act of the Legislature. Indianapolis, Ind., March 26.-The Legislature passed a bill placing the fire and police departments of this city under control of a board of commissioners selected by the Legislature; also a bill placing the streets, alleys, lighting, water supply, etc., in the hands of a board of public works and affairs selected in a similar manner. When these boards sought to enter upon their duties the old board of metropolitan police commissioners and the municipal authorities declined to surrender their power, holding that the laws under which the Legislative appointees proposed to act were unconstitutional. The case was heard in the Supreme court of this county, and Monday a decision was rendered sustaining the metropolitan commissioners and the municipal authorities and declaring the new law void. Judge Taylor ruled in favor of the new appointees and Judges Howe and Walker in opposition. The case will now be taken to the State Supreme court.

Gen. Goff Will Fight for His Office. WHEELING, W. Va., March 25.-Gen N. Goff, the Republican gubernatorial candidate, who received the majority of the votes cast at the recent election, and who is now engaged in a contest before the Legislature with Judge Fleming to establish his claims, arrived here last evening for a conference with his friends in this part of the State. In an interview he asserts in the strongest way his determination to push his claim in all possible ways and before all proper tribunals, and said that he felt confident that the Legislature would, from the evidence he should place before the special committee, finally acknowledge the justice of his position and the soundness of his claim to be Governor of the State.

THE WISCONSIN CENTRAL.

The St. Paul Railroad Men Unable to

Verify the Reported Lease. St. Paul, Minn., March 26. - The topic of conversation in railroad circles is the proposed lease of the Wisconsin Central railroad by the Northern Pacific. The local officials of both companies were as much in the dark as to the correctness of the story as any of the officials of the other roads, but they generally discredited the truthfulness of the statement. Assistant General Manager Thrall of the Northern Pacific said he had no knowledge of such an arrangement, and he had telegraphed President Oakes inquiring if there was any truth in the story. A rumor was current this morning that the consolidation had not only been effected but through trains would be run out of Chicago to the Pacific coast over the Wisconsin Central and Northern Pacific commencing next Wednesday. Upon being interrogated about the matter General Passenger Agent Fee said that he had no knowledge whatever of the re-ported leasing of the Wisconsin Central

HEV. E. KOENIG: Dear Sir:—I deem it a duty I owe you to certify to the good effect the taking of your medicine had on my health. I was not be dwith peryonspess brought on by overtroubled with nervousness brought on by over-vork. Your Nerve Tonic almost immediately stopped that peculiar tremor that I presume, is evidence of nervousness. I am now well. My head troubled me, could not sleep, head My head troubled me, could not sleep, nead hot, dreams of accidents, etc. One spoonful of your medicine removed the cause of my dreams; have not had them since; took seven or eight bottles of your medicine. Keep some in my house; always take some occasionally; would not be without it; have recommended it to my friends. If I am not mistaken your medicine will prove a great blessing to this medicine will prove a great blessing to this over-worked nation. Yours truly, JNO. F. SCANLAN,

MR. WEBSTER ERRED.

He Admits Having Been Mistaken About the Pigott Letters. LONDON, March 26 .- In the House of Commons Sir Charles Russell said he despeech made by Attorney-General Webster in the House on Friday. He read a letter which he had written to Mr. Webster, ir which he said that he did not believe that expenses. the Attorney-General had been correctly reported. It was absolutely incorrect to say that before Pigott's examination, or before Pigott fled, he (Russell) had re-ceived information, direct or indirect, to the effect that Pigott discredited the value of his own testimony. It was

letters discrediting Pigott's evidence. The surprise. After Pigott's flight they had repeatedly made open complaint in court regarding the manner in which the attorneygeneral had conducted the case. He did not impute dishonorable motives to the attorney-general, but he thought that Mr. Webster had been led away by the political character of the case into a course of coning circumstances, he would not have pursued. [Cheers.]

Continuing, Sir Charles Russell said that even when Pigott had testified he did not get the letters to which reference had been made, although Mr. Webster offered to produce the letter of Nov. 5. He asked the Attorney-General either to admit that he was mistaken or to point out in the official report any reference to the letter of

Mr. Webster admitted that, relying upon memory, he had erred when he wrote to Sir Charles Russell. He argued that in any case the matter was unimportant. Sir William Vernon Harcourt contended that no answer had been given to his charge that Mr. Webster, knowing Pigott to be a doubtful witness, had allowed the Times for two months to repeat its odious charges, and, further, had sat silent while Houston affirmed that he had complete trust in Pigott, which statement Mr. Web. ster knew to be false. Mr. Webster-"I have protested that I

had no means of knowing that Houston's statement was untrue." Sir William Harcourt, resuming, said that an attorney might weave the cobwebs of miserable professional etiquette about the matter, but the common sense of the nation would revolt against the keeping alive to the last moment of charges known to be false as an act of professional cruelty

Mr. Morley said he had not a word to day's debate.

Probable Wreck of the Conserva. NEW YORK, March 26.-The following dispatch from Boston was received at the New York maritime exchange this

morning: "The steamer Gate City from Savannah reports that March 23, at 11:30 a. m., in latitude 35 deg. 11 min., longitude 76 deg. 30 min., she passed one metallic life boat, and one lap-streak boat, the latter newly painted white. The first three letters of the name on the large boat looked like Con. The Gate City passed also in the same vicinity a sofa and other furniture, and joiner work, the latter painted white. The wreckage apparently came from a steamer and had not been long in the water." The message is regarded as strong evidence that the wreckage belonged to the gunboat Conserva, the vessel which has had so much trouble getting away from this port, because it was suspected of being

intended for Haytian insurgents. NEW YORK, March 26.-Policeman Hogan saw smoke pouring out of the second story window of the old fashioned two-story building at 1 Sullivan street Monday morn-

SPORTING NOTES.

An effort is being made to have the next National association regatta held at Sara-Caldwell, the Yale oarsman, who is said to be the Lest college stroke in the country and who has twice helped to defeat Har-

vard, may not row again this year. Arrangements have been completed for the coming eight-oared shell race between the New York Athletic club and the Atlantas. The distance will be one mile and a half, and will either be rowed on the New York's new course or the Harlem river. There are conflicting reports about the amount of money divided among the winsired to make a statement regarding the ners of the 'Frisco pedestrian contest. Some reports say \$26,000; others \$10,000.

> had to make strenuous efforts to get his Comiskey is one of the best base runners in the association, still he will take no chances of injuring himself junless it is absolutely necessary. He is not out for a base-running record, but if it comes down to a pinch he is about as sure a man as any

The next report may be that the winner

O'Connor, being recently asked who was the hardest man to defeat, Teemer or Gaudaur, replied: "Well, from my peculiar position it would hardly do to express an opinion on that point. They have each beaten the other three times. Gaudaur won three victories from Teemer in succession, the last being at Pullman, Ill., when the odds were 100 to 30 against Gaudaur. Teemer scored the most recent victory, however, at Lake Maranacook, near Portland, Me. At that time Gaudaur is said to have been suffering from a lame back."

Strong efforts are being made by the New York club to arrange with the city authorities for permission to play at the polo grounds this year. If they are allowed to do so they are willing so bind themselves to vacate the grounds at the end of the season. A resolution looking to this end will be laid before the board of aldermen in a few days. It is not likely that One Hundred and Eleventh street will be graded before next fall and it would probably be as beneficial to the city to have the club use the ground as it would be to declare the street "open" and have to guard it for a year with danger signals.

New Method of Teaching Chemistry. There may be more method than madness in the longing of the American student for a finishing course at a German university. At a recent discourse on chemistry, Prof. Heinrich Hoffman of Berlin illustrated the atomic constitution of organic compounds by the use of the ballet. Each girl was dressed in an individual solid color and represented an atom, and the grouping and movements of the atoms is said to have been very effective. Chemistry has now become a very popular study with the students, and the attendance at the lectures very full.

Thotographing the Aurora. Dr. Dayser has succeeded in obtaining photograph of the aurora borealis from the summit of Mount Rigi, in Switzerland. This is an interesting fact, it having hither to been regarded as impossible to photograph the aurora for want of a plate ion. sufficiently sensitive to be impressed by its rays. Gunther, in his well known physical geography, declares it to be utterly impossible to photograph the aurora, the most carefully prepared plate remaining neutral when exposed to the aurora's rays. Dr. Dayser resorted to special precautions and employed a colored dry plate.

WAITED TOO LONG.

Death in St. Louis Recalls a Romance

of the Early Petroleum Era. The death in this city of James S. Mc-Cray, says the St. Louis Globe-Democrat, ecalls a remarkable incident in the petroeum romance. Franklin is the county seat of Venango county, through which lows the Oil creek along whose banks occurred the great oil excitement. James tenths of the material prosperity of this McCray was a Venango county farmer American Union is due to inventors and whose farm, 150 acres, was situated on the top of a hill near Petroleum Center. He had been a wood-chopper and a mill-hand and after a time bought a team of horses. With his team he made some money hauling in the lumber woods and then bought the farm referred to.

He was to pay \$2,000 for it, but it was several years before he had it free of incumbrances. During the first oil excite ment on the creek no one thought of going on the hills to find oil and the McCray farm was passed by unnoticed. In 1876 the seekers after oil began to double on their track, and Keefer & Watson struck a well on the Dalzell lands, adjoining Mc-Cray's that flowed 400 barrels a day. Oil was worth \$3 a barrel, and later the price advanced to \$5 a barrel. Big wells were soon opened up on the McCray farm, he is well to-dey. Prentice & Evenson and for the acreage it proved to be the most prolific oil farm ever developed. For the privilege of welling on his farm Mc-Cray received \$1,000 an acre bonus and

half the oil. Wells were put down in rapid succession until the output of the farm was 2,700 barrels a day. Oil was then \$5 a barrel and as half the production of the farm belonged to McCray it made his income nearly \$5 a minute, night and day. For the farm, for which he paid \$2,000, he was offered \$500,000, but would not take it. Operators and sight-seers flocked to the farm by hundreds, and McCray's children, with a keen commercial instinct, set up an apple stand on the road leading up the hillside to the farm to turn an honest penny in the traffic of fruit gathered from the orchard.

At the time of this wonderful development McCray's hilltop farm yielded the largest revenue ever received by a single firm from the production of petroleum. From a humble farmer McCray became one erected immense iron tanks in which to hold it for a still higher price. He built and filled tanks until he had 150,000 barrels stored. For this cil he was offered \$500,-000 cash, but he would not accept it.

He was holding it, he said, for an even \$5 a barrel. There came a panic in the market, and oil dropped to \$3 a barrel, then to \$2. His tanks got to leaking and Powie-knives are being manufactured as a large amount of the oil ran into the plentifully as ever, but they are altogether creek. Lightning struck some of the tanks used for years. The sight of one keeps the held what was left of his oil for years and finally closed out the mere remnant that was left of his rich holdings at \$1 a barrel, realizing a few thousand dollars instead of \$500,000.

THE GAME LAW.

WHY THEY SHOULD BE MODIFIED OR RE

The Gazette wishes to heartily endorse the sentiment expressed by a correspondent in yesterday's issue, on the game law as it now exists. There is no question but that game should be protected, but unfortunately, state boundery lies are net recognized by migratory flocks of water fowl, in their semi-annual flight north and south, and the result is that Wis., protective laws become a farce. In conversation yesterday with Representative Miner, the writer was informed that a number of bills now pending on this question, had been referred to a special committee who were expected to digest the batch and formulate a bill that would be just and equitable. The chances are more than even, that the most of these bills are drafted in the interests of shooting clubs, and kid gloved sportsmen. Players and lovers of the game of chess. both in this country and in Europe, are looking forward with the greatest interest to the sixth American congress, which begins March 25. The international tournament which this congress has arranged promises to be the greatest event of its kind in the history of chess playing. The masters of the game in America, England, Germany, France, Russia and Austria will contend for the championship of the world and a prize of \$1,000. There will be more than twenty players entered, and each will play two games with each of the others. Seven prizes are offered, ranging from \$1,000 to \$200. The judges of the games are Thomas Frere, Philip Richardson and William M. de Visser. A jury of twelve good players has been appointed to decide any question that does not come within the jurisdiction of the congress committee. Among the players who are expected to en-ter are Capt. Mackenzie, Lipschutz, Judd, Hanham, Delmar, Lloyd and Halpern, of the United States; Vasques, of Havana; C.
